Your One-Stop-Shop

Pillows by Design makes designing gorgeous decorative pillows easier than ever. And the best part...*more affordable!* We provide the most logical, economical, and beneficial service for designing and purchasing custom pillows using high-end designer fabrics.

The Pillows by Design model is molded from decades of experience in the Interior Design industry, so you are assured the process developed had the *Design* and *Designer* at heart.

- Our pricing will always include the fabric/trims chosen, inserts, labor, and shipping to the final destination....a true one stop shop.
- We DO NOT make money on fabric; we extend full net pricing for yardage needed for the pillows specified.
- We quote based on how much fabric is actually needed for the pillows so there is no "wasted" moneys on unneeded fabric.
- You can design any size pillow; we are able to order custom inserts, so the sky is the limit.

- We have accounts with many Luxury Fabric companies. Click [here](#) for a list of many whom we work regularly with.
- We can upholster any style pillow (Trims, Flanges, Tape, Welt, Bolsters, etc)
- Our lead times are minimal compared to hiring an upholsterer, as long as the fabrics are available.
- [Get started](#) designing your custom pillows for your next project today!
